Independent Auditor's Report

Board of Directors United Soybean Board Chesterfield, Missouri

#### **Report on the Audit of the Financial Statements**

#### Opinion

We have audited the financial statements of United Soybean Board, which comprise the statements of assets, liabilities and net assets as of September 30, 2023 and 2022, and the related statements of revenues, expenses and changes in net assets and functional expenses for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of United Soybean Board, as of September 30, 2023 and 2022, and the changes in its net assets for the years then ended in accordance with the modified cash basis of accounting described in Note B.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the United Soybean Board, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Emphasis of Matter – Basis of Accounting

We draw attention to Note B of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note B, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the United Soybean Board's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Board of Directors United Soybean Board Page 2

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the United Soybean Board's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the United Soybean Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2023 on our consideration of United Soybean Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of United Soybean Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering United Soybean Board's internal control over financial reporting and compliance.

St. Louis, Missouri November 28, 2023

#### Note A Organization

#### United Soybean Board

United Soybean Board ("USB") was established on November 28, 1990, pursuant to the *Soybean Promotion, Research and Consumer Information Act of 1990* (7 U.S.C. 6301-6311) (the "Act") and began official operations on July 9, 1991, upon the enactment of the Soybean Promotion, Research and Consumer Information Order (7 CFR Part 1220) (the "Order"). The purpose of USB is to establish a coordinated program of promotion designed to strengthen the soybean industry's position in the marketplace and to maintain and expand domestic and foreign markets and uses for soybeans and soybean products, and to develop new markets and uses for soybeans and soybean products produced in the United States.

As stipulated in the Act, a referendum (Initial Referendum) was conducted on February 9, 1994, at which time soybean producers voted on whether to continue the national checkoff established by the Order. The Initial Referendum was approved by a majority vote and became effective on April 1, 1994.

In addition, as stipulated in the Act, a poll was conducted on July 26, 1995, at which time soybean producers voted on whether to continue the payment of refunds under the Order (Refund Poll). Based on the results of the poll, it was determined that a refund referendum was not to be conducted. As a result, soybean producers were not entitled to refunds of checkoff assessments paid on soybeans sold on or after October 1, 1995.

The Act requires that the Secretary of Agriculture provide U.S. soybean producers the opportunity to petition for a referendum on the Soybean Promotion and Research Program every five years. A request for referendum was conducted by the United States Department of Agriculture ("USDA") in October and November 1999. Subsequent requests for referendum were conducted by USDA in May 2004, May 2009, May 2014, and May 2019. Based upon the results of the requests for referendum conducted, USDA did not conduct a referendum on the Soybean Promotion and Research Program.

USB's soybean promotion program is carried out in the following target areas, action teams, and committees:

#### **Standing Program Priority Areas and Action Teams**

*Priority Areas* – Committees established as a strategic framework for the review and evaluation of program investments. The three Priority Areas (Innovation & Technology, Infrastructure & Connectivity, and Health & Nutrition) are responsible to the Board of Directors.

Action Teams – Committees established as the decision-making bodies for USB's annual investment in strategic projects. The three Action Teams (Supply, Demand, Communication & Education Committee) are responsible to the Board of Directors.

#### Note A Organization (Continued)

*Priority Area Work Groups* – Priority Areas intersect with the Action Teams in the Strategic Plan Matrix of the Strategic Plan (SP) to form Priority Area Work Groups aligned with the strategic objectives set by the LRSP. Board members assigned to Action Teams are also assigned to a Priority Area, thereby creating a Priority Area Work Group assignment. These groups evaluate proposals for projects to recommend investments to Action Teams.

#### **Standing Support Committees**

*Executive Committee* – Committee is established to provide oversight and leadership to USB, to provide oversight to USB's operations and to recommend related business priorities and policies to the Board of Directors for approval. In addition, it is responsible for funding and overseeing projects pertaining to the development of future and long-range strategy of the board, including market intelligence projects.

*Value Alignment Committee* – Committee is responsible to the Board of Directors. Its primary function is to ensure the alignment of the Value Creation Framework process to the strategic plan, while integrating new market intelligence as it becomes available.

*Audit & Evaluation* – Committee is responsible to the Board of Directors. Its primary functions are to ensure that checkoff funds are being spent pursuant to the Act and Order for the intended purpose and to determine if soybean producers have received a reasonable return on investments made by USB.

*Financial Audit Committee* – Committee is responsible to the Board of Directors. Its primary functions are to oversee USB's financial audit process and to serve as liaison between the external auditors and USB.

#### Creation of Related Entities - U. S. Soybean Export Council, Inc.

On February 26, 2005, USB and the American Soybean Association ("ASA") executed a Memorandum of Understanding ("MOU") outlining preliminary terms and conditions under which a new entity would be created to conduct international marketing activities effective October 1, 2005.

On March 2, 2005, the U. S. Soybean Export Council, Inc. ("USSEC"), was incorporated as a nonprofit corporation in the State of Delaware under Section 501(c)(6) of the Internal Revenue Code of 1986, as amended. The bylaws of USSEC, provide for representation on the board of directors by four members appointed by USB, four members appointed by ASA, and seven additional members elected from the Exporter and Allied membership classes. In addition, a Member-At-Large may be elected at a duly-constituted board meeting to bring the total number of board members for USSEC to 16.

As provided for in the MOU between USB and ASA, USSEC entered into a license and use agreement with ASA for a 10-year period beginning October 1, 2005. Under this agreement, USSEC is obligated to pay to ASA an annual royalty of \$615,000. In exchange, ASA grants to USSEC an exclusive, non-assignable, non-transferable right and license to use, reproduce, copy, and distribute the "ASA International Marketing" trademark and other trademarks as listed in the agreement. The royalty fee is fully reimbursable to USSEC by USB under the international

#### Note A Organization (Continued)

marketing management agreement. The expense will be recognized by USB in the periods incurred under the applicable international marketing management agreement between USB and USSEC.

In November 2012, USSEC and ASA executed the first amendment to the license and use agreement. The amendment extends the termination date to September 30, 2025, and requires ASA to perform certain services and to provide market insights and expertise in addition to the transfer of assets and licensing of intellectual property previously required. The agreement is subject to the annual review and appropriation process by USB that covers all multi-year contracts.

#### Note B Summary of Significant Accounting Policies

#### **Basis of Accounting**

The financial statements of USB are prepared on the modified cash basis of accounting, which represents a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). This basis of accounting differs from GAAP primarily because certain revenue and related assets have been recognized when received rather than when earned and certain expenses and related liabilities have been recognized when paid rather than when the obligations were incurred. The modified cash basis is preferred in order to produce more timely reporting and avoid the risk of improper cutoffs related to complexities in obtaining contractor expense invoicing. Additionally, under the modified cash basis of accounting, investments are reported at fair value, equipment is capitalized at cost, deposits are reported as prepaid expenses, and unspent matching grant funds are reported as other liabilities.

#### Use of Estimates

USB has made certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

#### Cash, Cash Equivalents, and Investments

USB considers all highly liquid investment securities with an original maturity of three months or less to be cash equivalents. The carrying amounts of cash and cash equivalents approximate fair value due to the short maturity of these financial instruments. USB's investment securities are reported at fair value. Fair value is established as readily determinable current market values for investment securities. Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method. Certificates of Deposits are recorded at cost which approximates fair value. Realized and unrealized gains and losses are included in the statement of activities.

#### **Restricted Cash**

USB holds certain funding for agreements with unrelated entities that require segregated accounts until the funding is expended.

## United Soybean Board Notes to Financial Statements

#### September 30, 2023 and 2022

#### Note B Summary of Significant Accounting Policies (Continued)

#### Equipment and Leasehold Improvements

All purchases of non-expendable, tangible personal property and with a useful life of more than one year and an acquisition cost of \$5,000 or more are recorded at cost less accumulated depreciation. USB uses the straight-line method of depreciation over the estimated useful life of the asset, which ranges from 3 to 15 years. In addition, leasehold improvements with an acquisition cost of \$5,000 or more are recorded as leasehold improvements and are depreciated over the life of the lease or useful life, whichever is the shortest.

#### **Checkoff Assessments**

Checkoff assessments revenue is generated by a mandatory assessment of one-half of 1% of the net market price of soybeans bought or otherwise acquired by the first purchaser from the producer. Assessment revenue is recognized in the month in which USB receives payment of the assessments.

#### **Net Assets**

Net assets without donor restrictions are available for use in general operations and not subject to grantor restrictions. The governing board has designated, from net assets without restrictions, net assets for board approved committed projects and a net asset target, set at fifteen percent (15%) of the total budgeted expenditures for the prior fiscal year, to serve as the level of unrestricted net assets to be held in reserve.

#### Income Taxes

As an instrumentality of the United States Government, USB is exempt from income taxes under Section 501(c)(1) of the Internal Revenue Code.

#### Functional Allocation of Expenses

The financial statements report certain categories of expenses that are attributable to program or supporting functions. These expenses include depreciation, office, and occupancy, information technology consulting and other general overhead expenses. These expenses are allocated proportionally based on the number of hours recorded by USB staff for program or supporting functions.

#### Note C Cash, Cash Equivalents, and Investments

USB follows the requirements in the Act, Order and Agricultural Marketing Service ("AMS") investment policy. For the fiscal years ended September 30, 2023 and 2022, the bank balance of USB's operating cash deposits were entirely covered by federal depository insurance and is held in interest bearing demand deposit accounts.

At September 30, 2023 and 2022, cash and cash equivalents consisted of the following:

	 2023	2022
Operating and Restricted Cash (ICS)	\$ 79,769,477	\$ 69,389,720
Money Market (ICS)	1,247,569	1,209,165
Less Outstanding Checks	 (285,531)	 (1,301,351)
Total	\$ 80,731,515	\$ 69,297,534

USB is authorized to invest, on a short-term basis, in certificates of deposit insured by the Federal Deposit Insurance Corporation or securities consisting of obligations issued, fully insured, or guaranteed by the U.S. or any U.S. government agency.

At September 30, investments consisted of the following:

		2023
	Cost	Fair Value
U.S. Treasury Notes	\$ 69,100,492	\$ 70,541,518
Certificates of Deposit	32,507,875	
Total	\$ 101,608,367	\$ 103,456,532
		2022
		2022
	Cost	Fair Value
U.S. Treasury Notes	<b>Cost</b> \$ 68,367,565	Fair Value
U.S. Treasury Notes Certificates of Deposit		Fair Value   \$ 68,430,681

#### Note D Fair Value Measurements

Financial assets and liabilities have been disclosed at their respective fair values or measured at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date on a recurring basis. The financial assets and liabilities are valued using the following fair value hierarchy in order to disclose the measurement of fair value based on three levels of observable or unobservable inputs.

- Level 1: Quoted prices (unadjusted) in active markets for identical assets that USB has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect USB's own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances.

All financial assets and liabilities held by USB are considered to be Level 1.

#### Note E Available Resources and Liquidity

The following represents USB's financial assets at September 30, 2023 and 2022:

	2023	2022
Financial Assets at Year End		
Cash	\$ 79,483,946	\$ 68,088,369
Money Market Funds	1,247,569	1,209,165
Investments	103,456,532	90,938,358
Other Receivables	73,500	
	184,261,547	160,235,892
Less:		
Restricted Assets	2,504,296	112,645
Program Commitments	71,810,347	58,097,375
	74,314,643	58,210,020
Total Financial Assets Available	\$ 109,946,904	\$ 102,025,872

As part of USB's liquidity management, cash in excess of daily requirements is invested in short-term investments.

#### Note F Equipment and Leasehold Improvements

Equipment and leasehold improvements at September 30, 2023 and 2022, consists of:

	 2023			
Computer Equipment	\$ 81,178	\$	120,979	
Leasehold Improvements	 156,354		156,354	
	237,532		277,333	
Less: Accumulated Depreciation	 (230,896)		(219,989)	
Total	\$ 6,636	\$	57,344	

Depreciation expense was \$50,708 and \$72,597 for the years ended September 30, 2023 and 2022, respectively.

#### Note G Other Liabilities

In fiscal year 2020, USB entered into a memorandum of understanding (MOU) with the Foundation for Food and Agriculture Research ("FFAR") to co-fund various research projects related to the protein content and quality of soybeans. In 2023, the MOU was amended to include an additional \$2,000,000 and remain in force to extend the research through 2025. USB received \$2,000,000 and \$150,076 of FFAR matching grant funds in fiscal years 2023 and 2022, respectively. Unexpended funds shall be reimbursed to FFAR at the end of the program. Other liabilities of \$1,336,847 and \$112,645 represent unspent matching grant funds received from FFAR that have not been expended as of September 30, 2023 and 2022, respectively.

#### Note H Operating Leases

USB has various operating lease agreements for equipment and facilities used in its activities, which expire on various dates through 2026.

Future minimum lease payments under non-cancellable operating leases are as follows:

2024 2025 2026	\$ 275,058 274,819 2,629
	\$ 552,506

#### Note H Operating Leases (Continued)

Lease expenses included in the financial statements totaled \$260,856 and \$244,720 for the years ended September 30, 2023 and 2022, respectively.

#### Note I Funding Agreements and Contracts

USB has commitments through various contracts and funding agreements, as detailed in the following tables by current and prior years. Commitments represent unexpended budgeted funds as of September 30, 2023 and 2022. These commitments are overseen by either an action team, USB's Executive Committee, or Audit & Evaluation Committee.

		C		itments - 202	23	
			Fu	nding Year		
	202	22 & Prior		2023		Total
Action Team Initiatives	\$	9,867,342	\$	55,900,192	\$	65,767,534

USDA				305,464		305,464
Total	\$	3,593,445	\$	54,503,930	\$	58,097,375

#### Note J Retirement Plan

USB has a defined contribution plan, covering all employees. Annual contributions by USB are determined each year by the Executive Committee of USB. Contributions for the years ended September 30, 2023 and 2022, were approximately \$338,000 and \$318,000, respectively.

#### Note K Transactions with the U.S. Department of Agriculture

Under the provisions of the Act and the Order, USB is required to pay the U.S. Department of Agriculture for certain fees and monitoring costs.

#### Note L Relationship with Contractors

USB currently outsources some of its program management responsibilities to three contractors. During the years ended September 30, 2023 and 2022, USB contracted with USSEC for its international opportunities projects; with SmithBucklin Corporation, for its domestic opportunities and supply projects; and with Osborn Barr Paramore for its communications projects. The percentage of expense concentrated with these contractors approximated 85% and 87% for the years ended September 30, 2023 and 2022, respectively.

#### Note M Related Entity

#### USSEC

USSEC is a separate not-for-profit organization for which USB has the authority to appoint four of the 16 members of USSEC's board of directors. USB reimburses a portion of the domestic administration costs and market access activities for USSEC's international opportunities programs. In addition, USB provides funding for certain administration costs in foreign markets and for program costs. For the year ended September 30, 2023, USB funded domestic and foreign administration and market access costs of approximately \$19,640,000 and project costs of approximately \$29,393,000. For the year ended September 30, 2022, USB funded domestic and foreign administration and market access costs of approximately \$18,230,000 and project costs of approximately \$25,119,000.

#### **Note N Compliance Matters**

In accordance with the provisions of the Act, USB's general and administrative expense budget is limited to 5% of projected checkoff assessment income. USB is also limited to 1% of projected checkoff assessment revenue for administrative employee salary and benefits. During fiscal years ended September 30, 2023 and 2022, USB did not exceed these limitations.

#### Note O Subsequent Events

USB evaluated all subsequent events through November 28, 2023, the date the financial statements were available to be issued.

#### Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

#### **Independent Auditor's Report**

Board of Directors United Soybean Board Chesterfield, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of United Soybean Board, which comprise the United Soybean Board's statement of assets, liabilities and net assets as of September 30, 2023, and the related statements of revenues, expenses, and changes in net assets and functional expenses for the year then ended, which are reported on a modified cash basis of accounting, and the related notes to the financial statements, and have issued our report thereon dated November 28, 2023.

#### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the United Soybean Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the United Soybean Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the United Soybean Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the United Soybean Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
